CONTENTS

No. 1. March 1942

The Effect of Hypoglycemia on the Electroencephalogram at Varying Degrees of Oxygenation of the Blood. *E. Gellhorn and M. Kessler* 1

Variability of the Hering-Breuer Reflexes in the Dog Under Sodium Evipal Anesthesia. *Carl A. Moyer and Henry K. Beecher* 7

Central Stimulation of Respiration During Hypoxia. *Carl A. Moyer and Henry K. Beecher* 13

The Influence of the Pituitary and Adrenal Cortex on Resistance to Low Environmental Temperatures. *R. Tyslowitz and E. B. Astwood* 22

Experimental Investigation on the Effects of Trauma and Traumatic Shock on Gastrointestinal Motility and Secretions. *H. Necheles and Wm. H. Olson* 32

The Effect of Denervation on the Filtration Rate and Blood Flow in Dog Kidneys Rendered Hyperemic by Administration of Pyrogen. *Edwin P. Hiatt* 38

Water Intoxication of the Frog (Rana pipiens). *Edward C. Schneider and Wilson C. Grant* 42

The Respiration of Neurones. *Jane Pearce and R. W. Gerard* 49

Oxidases, Pressor Amines and Hypertension. *Gustav J. Martin, C. T. Ichniowski, W. A. Wisansky and S. Ansbacher* 66

Studies of the Metabolism of Bovine Epididymal Spermatozoa. *Gertrude Henle and Charles A. Zittle* 70

The Use of Double Work Periods in the Study of Fatigue and the Influence of Caffeine on Recovery. *Eliot Foltz, A. C. Ivy and C. J. Barborka* 79

The Circulatory Response of the Unanesthized Dog to Small Physiological Quantities of Adrenalin. *Harold C. Wiggers, Alfred M. Duschatko and Ross C. Kory* 87

The Anterior Pituitary in the Carbohydrate Metabolism of the Eviscerated Rat. *Jane A. Russell* 95

Heat Exchanges During Recovery from Experimental Deficit of Body Heat. *E. A. Pinson and E. F. Adolph* 105

Pressure of Blood in the Right Auricle in Animals and in Man: Under Normal Conditions and in Right Heart Failure. *Dickinson W. Richards, Jr., André Cournand, Robert C. Darling, William H. Gillespie and Eleanor DeF. Baldwin* 115

The Interrelationship of p-Aminobenzoic Acid and Inositol. *Gustav J. Martin* 124

Influence of Anterior Pituitary Extract on Protein and Carbohydrate Metabolism. *Karl E. Paschkis* 128

The Influence of Diethyl-Stilbestrol on Carbohydrate Metabolism in Normal and Castrated Rats. *R. G. Janes and W. O. Nelson* 136

Observations on the Physiological Reactions of the Ductus Arteriosus. *J. Allen Kennedy and Sam L. Clark* 140

Training and Its Effects on Man at Rest and at Work. *C. A. Knehr, D. B. Dill and William Neufeld* 148

The Reaction and Neutralizing Ability of the Contents of the Pyloric Antrum and First Part of the Duodenum in Normal Dogs Following an Ewald Meal. *J. Edward Berk, J. Earl Thomas and Martin E. Rehfuss* 157

The Metabolism of Fructose by the Eviscerated Rat. *Roger M. Reinecke* 167

The Effect of the Urethane of Beta Methylcholine Chloride upon the Parasympathectomized Cat's Eye. *Francis C. Keil, Jr. and Walter S. Root* 173

The Changes Produced on the Oxygen and Carbon Dioxide Content of Arterial and Venous Blood of the Brain during Diathermy Therapy for General Paresis. *Joseph M. Looney and Embrie J. Borkovic* 177

An Analysis of the Action of Acetylcholine on the Cardiac Ganglion of Limulus polyphemus. *W. E. Garrey* ... 182
The Effect of Hypertonic Plasma on the Body Fluids in Normal Experimental Animals. *C. T. Ashworth, E. E. Muirhead and J. M. Hill* ... 194
Combination of Hypoxic and Hypercapnic Stimulation at the Carotid Body. *Claude V. Winder* ... 200
The Flow of Lymph from the Lungs of the Dog. *Madeleine F. Warren and Cecil K. Drinker* ... 207

No. 2. April, 1942

Ciliary Movement and Circulation of Cerebrospinal Fluid within Brain Ventricles in Larval and Adult Anurans. *Hsiang-Yao Chu* ... 223
Urine Dilution and Concentration Tests in Adrenalectomized Dogs. *Frederic J. Kottke, Charles F. Code and Earl H. Wood* ... 229
Absorption and Disposition of Glucose in the Chick. *W. R. C. Golden and C. N. H. Long* ... 244
Observations on the Accuracy of the Thermostromuhr. *D. E. Gregg, W. H. Pritchard, R. W. Eckstein, R. E. Shipley, A. Rotta, J. Dingle, T. W. Steege and J. T. Wearn* ... 250
Operative Mechanism of Some Errors in the Application of the Thermostromuhr Method to the Measurement of Blood Flow. *R. E. Shipley, D. E. Gregg and J. T. Wearn* ... 263
The Homeostatic Rôle of a Renal Humoral Mechanism in Hemorrhage and Shock. *Angie S. Hamilton and Dean A. Collins* ... 275
The Effect of a Cream Meal on the Acidity and Neutralizing Ability of the Contents of the Duodenal Bulb in Normal Dogs. *J. Edward Berk, J. Earl Thomas and Martin E. Rehfuss* ... 285
Precocious Gonadal Development Occurring in Immature Rats Following a Short-Time Treatment with Antigonadotropic Serum. *Herbert S. Kupperman, Roland K. Meyer and John C. Finerty* ... 293
Plasma Protein Replacement after Hemorrhage in Dogs With and Without Shock. *Richard V. Ebert, Eugene A. Stead, Jr., James V. Warren and William E. Watts* ... 299
The Relation of the Pituitary, Thyroid and Adrenal Glands to the Maintenance of Normal Serum Albumin and Globulin Levels. *Louis Levin and James H. Leathem* ... 306
Linear Relationship Between the Circulating Red Cell Mass and the Venous Hematocrit as Determined with Radioactive Iron. *P. F. Hahn and W. F. Bale* ... 314
Idioventricular Rhythms and Fibrillation Induced at the Anode or the Cathode by Direct Currents of Long Duration. *A. Sidney Harris and Gordon K. Moe* ... 318
The Action of Ions on the Mammalian Heart. *C. R. Spealman* ... 332
The Influence of Bile Salts on Active Intestinal Absorption of Chloride. *H. C. Peters* 340
The Effect of Low Potassium Diet and of Desoxycorticosterone Acetate upon Renal Size. *Stanley H. Durlacher, Daniel C. Darrow and Milton C. Winternitz* ... 346

No. 3. May, 1942

Ion Antagonism and the Frog Heart. *C. R. Spealman* ... 351
A Defect in the Coagulation Mechanism of Swine Blood. *M. E. Muhrer, A. G. Hogan and R. Bogart* ... 355
The Anomaly of a Normal Duke's and a Very Prolonged Saline Bleeding Time in Swine Suffering from an Inherited Bleeding Disease. *Edwin T. Mertz* ... 360
The Effect of Body Size Upon Energy Exchange in Work. *Sid Robinson* ... 363
The Reaction and Neutralizing Ability of the Contents of the First Part of the Duodenum in Normal Dogs Under Fasting Conditions. *J. Edward Berk, J. Earl Thomas and Martin E. Rehfuss* ... 369
Hypothalamic Stimulation Yielding Adrenalin Reversal Effects. *M. B. Bender and E. A. Weinstein* ... 376

The Influence of Posture on Blood Flow in the Dog. *H. S. Mayerson* 381
Effect of Fasting and Feeding on the Response of Surviving Tissues to Quinidine. *Fred G. Brazda and James C. Rice* 386
The Influence of Benzedrine on Work-Decrement and Patellar Reflex. *Gordon A. Alles and George A. Feigen* 392
Observations on Hemorrhagic Hypotension and Hemorrhagic Shock. *J. M. Werle, R. S. Cosby and C. J. Wiggers* 401
Cardiac and Peripheral Resistance Factors as Determinants of Circulatory Failure in Hemorrhagic Shock. *C. J. Wiggers and Jacob M. Werle.* With technical assistance of *P. C. Shea* 421
A Study by Quantitative Methods of the Spontaneous Variations in Volume of the Finger Tip, Toe Tip, and Postero-Superior Portion of the Pinna of Resting Normal White Adults. *G. E. Burch, A. E. Cohn and C. Neumann* 433
A Study of the Relationship Between the Pulse and Alpha Waves of the Tips of the Fingers and Toes of Five Adults. *C. Neumann, A. E. Cohn and G. E. Burch* 448
A Study by Quantitative Methods of the Spontaneous Variations in Volume of the Tips of the Fingers and Toes and Postero-Superior Portion of the Pinna of Hypertensive Patients and Senile Subjects. *C. Neumann, A. E. Cohn and G. E. Burch* 451
The Disappearance Rate of Tyrosine from the Blood of Dogs. *James A. Greene and George W. Johnston* 460
The Absolute Threshold of Vision in Cat and Man with Observations on Its Relation to the Optic Cortex. *Charles S. Bridgman and Karl U. Smith* 463
Chemical Composition of Human Semen and of the Secretions of the Prostate and Seminal Vesicles. *Charles Huggins, William W. Scott and J. Henry Heinen* 467
Histochemical Changes in the Myocardium of Dogs Following Experimental Temporary Coronary Arterial Occlusion. *Oliver H. Lowry, D. Rourke Gilligan and A. Baird Hastings* 474
Some Special Instances of Predominant Chemical Stimulation of the Expiratory Half-Center. *Robert Gesell, Carl A. Moyer and John B. McKittrick* 486
The Effect of Sulfanilamide on the Ability of Rabbits and Dogs to Withstand High Altitudes. *Frank Lawrence Lawson* 494
The Measurement of Edema in the Heart-Lung Preparation. *Earl H. Wood and Gordon K. Moe* 506
Electrolyte and Water Content of the Ventricular Musculature of the Heart-Lung Preparation with Special Reference to the Effects of Cardiac Glycosides. *Earl H. Wood and Gordon K. Moe* 515
The Normal Pneumocardiogram. *H. A. Blair, A. M. Wedd and H. M. Hardwicke* 523
Titrations of Human Seminal Fluid with Acids and Alkalis and Their Effects on the Survival of Sperm Motility. *Leo Shedlovsky, Donald Belcher and Irving Levenstein.* 535

No. 4. June, 1942

The Activity of the Pacemaker Previous to the Discharge of a Muscular Impulse. *Emil Bozler* 543
The Action Potentials Accompanying Conducted Responses in Visceral Smooth Muscles. *Emil Bozler* 553
The Activity of the Descending Duodenum During Nausea. *Franz J. Ingelfinger and Robert E. Moss* 561
Differences Among Adrenal Steroids with Respect to Their Efficacy in Protecting the Adrenalectomized Dog Against Circulatory Failure. *W. W. Swingle, J. W. Remington, V. A. Drill and W. Kleinberg.* 567
The Effect of Depletion of Body Potassium on the Time of Survival After Nephrectomy and Ureteral Ligation. *Stanley H. Durlacher and Daniel C. Darrow* 577
Effects of the Removal of the Anterior Lobe of the Hypophysis on Some Renal Functions. *H. L. White, Peter Heinbecker and Doris Rolf* 584

Relation of the Adeno and the Neurohypophysis to Insulin Sensitivity and Sugar Tolerance in the Dog. *Peter Heinbecker, H. L. White and Doris Rolf* 592
Production of Insulin Resistance in Depancreatized Dogs. *James A. Greene, Ann David and George Johnston* 595
The Respiration of the Developing Brain. *D. B. Tyler and A. van Harreveld* 600
An Acid-Neurohumoral Mechanism of Nerve Cell Activation. *Robert Gesell, Charles R. Brassfield and Mary Alice Hamilton* 604
The Spontaneous Activity and Food Intake of Rats with Hypothalamic Lesions. *A. W. Hetherington and S. W. Ranson* 609
Muscle Tremors and the Development of Temperature Regulation in Birds. *Eugene P. Odum* 618
Speed of Responses of Various Muscles of Cats. *J. H. Wills* 623
Accommodation in Mammalian Motor Nerves. *A. Rosenblueth and E. C. del Pozo* 629
Some Actions of Indole on the Dog. *Harold N. Ets and I. M. Feinberg* 647
The Etiology of Hypericism, a Photosensitivity Produced by St. Johnswort. *Nello Pace* 650
Water Metabolism of the Chicken (Gallus domesticus) with Special Reference to the Rôle of the Cloaca. *William M. Hart and Hiram E. Essex* 657
The Vasomotor Components in the Vascular Reactions in the Finger to Cold. *Alrick B. Hertzman and Laurence W. Roth* 669
The Reactions of the Digital Artery and Minute Pad Arteries to Local Cold. *Alrick B. Hertzman and Laurence W. Roth* 680
The Absence of Vasoconstrictor Reflexes in the Forehead Circulation. Effects of Cold. *Alrick B. Hertzman and Laurence W. Roth* 692

No. 5. July, 1942

The Effects of Veratrine upon the Superior Cervical Ganglion. *A. Rosenblueth and E. C. del Pozo* 699
The Effect of Adrenalectomy on the Absorption of Hydrogenated Cottonseed Oil, Corn Oil, Tributyrin and Sodium Butyrate. *Lucien A. Bavetta and Harry J. Deuel, Jr.* 712
The Parathyroids and the Clearance of Inorganic Phosphate. *Marion Fay, Vivian G. Behrmann and Dorothy M. Buck* 716
The Salivatory Motor Nuclei in the Monkey. *H. W. Magoun and Lindsay E. Beaton* .. 720
The Nature of the S Complex of the Electrocardiogram. *L. H. Nahum, H. E. Hoff and W. Kaufman* 726
Specificity in the Renin-Hypertensinogen Reaction. *John W. Bean* 731
Muscle Potentials Accompanying a Single Volitional Twitch. *J. E. P. Toman and Robert H. Oster* 743
The Effect of Ether and Starvation on Liver Glycogen Maintenance after Various Diets. *Robert A. Newburger and Frederick R. Brown* 746
Transfer of Water Across the Placenta of the Guinea Pig. *Alfred Gellhorn and Louis B. Flexner* 750
The Transfer of Water and Sodium to the Amniotic Fluid of the Guinea Pig. *Louis B. Flexner and Alfred Gellhorn* 757
Studies on the Relation of the Liver Function, Pulse Rate and Temperature of Hyperthroid Dogs to Vitamin B_1 and Yeast. *Victor A. Drill and Harry W. Hays* .. 762
Vanadium—A Consideration of Its Possible Biological Rôle. *Esther Peterson Daniel and Elizabeth M. Hewston* 772
The Effects of Adrenalectomy and Replacement Therapy on the Serum Protein Levels of the Cat. *Louis Levin, J. H. Leathem and R. C. Crafts* 776
Studies on Irradiated Cerebral Differentiated Excitation and Inhibition as Indicated and Measured by Respiration. *William F. Allen* 783
Index 797
